

# Mailing Notices and Other Documents to the De-facto Government

All of your notices and other documents that you send to the de-facto government should be sent registered mail (USPS label #200), green card return receipt (USPS form #3811) to the addressee using physical stamps.

Never use metered mail. Metered mail is mail fraud.

You should also add a \$.01, \$.02 or \$.03 stamp in the upper center of your envelope with your "by" signature across it which makes you the postmaster.

You will also need to fill out one USPS form #3806 for each piece of registered mail.

The goal of all this expense and trouble is to make sure your notices do indeed get to where you are mailing them and provide you with proof that they were received.

Go to the post office and request at least 20 each of the following to have on hand when needed:

- Registered mail labels (USPS label #200). These are the red, black and white labels with the bar code on them and the registered mail # at the bottom.
- Green card return receipt labels (USPS form #3811)
- Registered mail receipts (USPS form #3806).
- \$.01, .02, or .03 cent stamps

Registered mail labels (USPS label #200)

Green card return receipt labels (USPS form #3811)

Registered mail receipts (USPS form #3806).

\$.01, \$.02 or \$.03 stamps

If you are mailing several pieces of registered mail, you might want to buy the stamps ahead of time and put them on the envelope so the USPS clerk doesn't have to do it. You can go to the USPS.com website and find price information. Make sure to specify a declared value of your parcels as \$0.00 when mailing them at the post office.

Fill-out all forms and prepare your mail envelopes before going to the post office to facilitate a smoother experience. Remember that the clerks are indoctrinated and will not understand why you are mailing your parcels in this way. Don't let them sway you.

When you need to add a registered mail # to a notice or document pick off one of the labels you got from the post office and use the # from it and make sure to use that same label on the envelope you are sending with the notice.

It is a good idea to take a picture of your completed envelopes for your records. Because of the space required for the labels and physical stamps you will need to use the larger 10x13 envelopes and then you also won't have to fold your documents.

Here are a couple examples of completed envelopes:

\*\*\*Please send proof of mailing to your recording secretary either with a photo of envelope like in examples or with registered mail receipts

# Mailing Notices and Other Documents to the De-facto Government

Priority Mail is also land & soil with court of record via tracking

It is not a Chain of Custody like Registered Mail but still is a court of record.

Registered Or Priority Mail is what we use for serving NOTICES or any other Lawful or Legal Documents.

Priority mail does NOT require form 3811( green card) or 3806 (registered mail receipts), in fact they can NOT be used with Priority Mail.

Label #400 tracking numbers is all you really need so you can put the Court of Record ie tracking number on your documents.

Priority Mail Label #400

Here is a sample of a completed envelope:

Please log into your GFG\_LRPS or LRO account and re-view them.

Please Check All addresses and Agents & Assign's on the Templates before Mailing!

Also, The videos are structured to use Registered Mail, RM is the highest Court of Record on the Land with the Post Office but you can also use Priority Mail because of the Costs, Up to you!

If you use PM instead of RM please just follow the same instructions as RM Except for using Form 3811, 3811 can not be used with PM.

You must provide your recording secretary with all of the executed mailing receipts when completed.
